Friday, October 30, 2026

Dear Colleagues,

I am excited to share that we have officially completed the sale of our longtime home at 2900 Veterans Memorial Highway in Bohemia and the purchase of our new building at 2100 Middle Country Road in Centereach. These are significant milestones in what we have come to call our Becoming the People's Arc initiative.

With these transactions now complete, you can expect to see a little increase in activity as we begin preparing our new building, finalizing plans, and coordinating the many details involved in this transition.
While the pace of activity will pick up, I want to reassure everyone that we still have time to do this right. There will be no immediate relocation of our Day Habilitation program or administrative teams. We remain committed to a careful, thoughtful process that keeps the people we support, our employees, and the quality of our programs at the center of every decision.

We have also made tremendous progress in developing our new Program Without Walls locations. All but one of our planned sites have been secured, with the final location in the last stages of negotiation. This is an important step toward creating more opportunities for people to build relationships and participate in their own communities.

As we look ahead, I also want to recognize what 2900 Veterans Memorial Highway has meant to our organization. For decades, this building has been home to remarkable people, extraordinary accomplishments, lasting friendships, and countless moments that have shaped who we are today. We will make time to honor and celebrate that history, the people who built it, and the many memories that deserve to be carried into our next chapter.

I would like to invite all employees to our next round of Becoming the People's Arc Town Hall meetings. We will share updates on the transition, discuss anticipated timelines and next steps, and provide opportunities for questions and conversation. Please see flyer regarding upcoming dates and times for these meetings. Our Becoming the People's Arc project is driven by our strategic priorities of People, Community, and Opportunity. It is about creating environments where people can thrive, employees can do their best work, and relationships and community connections can flourish.

Thank you for your continued commitment, flexibility, and the care you bring to our mission every day. I am proud of what we have accomplished together and excited about what lies ahead.

With gratitude,

John McGuigan
Chief Executive Officer
The People's Arc of Suffolk
